

To connect to the 'TCDconferenceWIFI' guest Wi-Fi network

- Ensure Wi-Fi is turned-on on your device.
- Open the Wi-Fi configuration screen of your device.
- Select the 'TCDconferenceWIFI' SSID.
- A login page should automatically open. If it does not, open a web browser and try go to an external webpage.
- On the TCDconferenceWIFI landing page, if you do not have a username and password, select the link to self-register. Otherwise enter your username and password.
- On the 'Self-Registration' page, enter the following details:
 - Conference ID: TCDCONF5D
 - Mobile phone number: this will be used to send you a password and will also become the username.
- On the 'Self-Registration Receipt' page, select 'Sign-In' and enter the credentials you received via SMS.

Additional info

- To get back to the login page at any stage, go to your device's Wi-Fi configuration screen and re-select the 'TCDconferenceWIFI' SSID
- A number of devices can be registered using the same mobile phone number, however, you can only log onto the self-service guest Wi-Fi using the device from which you sent the request.
